ABOUT THE TOUR

A week that answers every question

Most people considering a move to Namibia have read everything online and still cannot picture the life. This tour exists to close that gap. You walk the streets, price the groceries, view the houses and meet the professionals, then leave with a written plan built around what you actually saw.

Who it is for

Retirees, remote workers, families, investors and members of the diaspora seriously exploring Namibia.

What makes it different

Every day is built around decisions: cost of living, neighbourhoods, property, residency and business.

Who you meet

A licensed immigration attorney, a bank relationship manager, estate agents and local business owners.

What you leave with

A written relocation action plan covering your pathway, budget and next steps.
